TIMELINE

TIMELINE AND MILESTONES

SYSTEM SPECIFICATION

Net metering is entirely dependent on DISCOM, we don't control that process

SOLAR COMPONENTS

High-quality components from trusted **Tier-1 OEMs**, selected for performance, safety, and long-term ROI.

SPECIFICATIONS	BRAND	DESCRIPTION
 PANEL Type: Bifacial (6 panels) Capacity: 579 Warranty: 12/30 yrs (prod/perf)	 Waaree Group	Modules offering high efficiency with backside generation, long performance life.
 INVERTER Type: On-Grid (1 inverters) Capacity: 5 kW Warranty: 10 years	  Sungrow / Havells	Smart inverter featuring high conversion efficiency, Wi-Fi monitoring, advanced protection systems.
 CABLE Type: DC/AC Solar Cables Warranty: 8 years Spec: UV-resistant, Double Insulated	  Havells / Polycab	Premium DC 4/6 sq.mm and AC 10 sq.mm solar-grade cables ensures low-loss power transmission and UV resistance.
 ELECTRICAL Standard: HDGI Earthing, LA-25	  True Power / Tata Power	
 STRUCTURE Warranty: 25 years Weight: 12 kg/kW Standard: IS 2062, HDGI	  JSW Steel / Tata Steel	Hot-dip galvanized engineered for optimal panel orientation.
 SERVICES End-to-end Installation Support: Free AMC Ongoing monitoring	 Shri Solar	Professional installation with comprehensive after-sales support

OFFER & TERMS

COST

Description	Amount	Total
System Cost	Rs 1,88,246	Rs 1,88,246
GST Amount (8.9%)		Rs 16,754
Subsidy		Rs 78,000
Total Payable Cost		Rs 2,05,000

3kW ongrid solar system with tax @8.90% GST

SCOPE

What we cover under our services	
System Design	Free AMC & Monitoring
Installation	Commissioning

Delay in net metering is entirely on DISCOM, we don't control their operations

PAYMENT TERMS

ENVIRONMENT IMPACT

You are contributing to solve earth's biggest problem-
Climate Change

**CARBON DIOXIDE
OFFSET**

75.3 Metric Tons

**EQUIVALENT ACRES
OF FOREST**

3.4 Acres/Year

**COAL BURN
AVOIDED**

3.63 Metric Tons

TERMS & CONDITIONS

Proposal Validity

This proposal is **valid for 30 days** from the date of issue. Pricing, component availability, and subsidy applicability are subject to change thereafter.

Pricing & Taxes

- All prices are quoted in Indian Rupees (INR) and are inclusive of GST at prevailing rates.
- Any revision in GST or statutory levies after the proposal date will be charged at actuals.
- Work beyond the agreed scope will be quoted separately before execution.

Payment Terms

Payments are due as per the schedule on the payment terms page. Delayed payments may pause execution and affect the committed timeline.

Scope of Work

Included: supply and installation of all listed components, mounting structure, DC and AC cabling, earthing, net-metering application support, commissioning, and handover documentation.

Not included: civil or shed work, DG synchronisation, tree trimming, DISCOM deposits or fees, HT-side charges, and anything not explicitly listed in the scope.

Site Requirements

- A shadow-free roof area with adequate structural capacity for the proposed system.
- Access to the utility meter, earth-pit location, and water for panel cleaning.
- Reasonable access for material delivery and installation.

Generation & Savings Estimates

Generation and savings figures are *indicative estimates* based on historical irradiance data, quoted panel and inverter specifications, and standard degradation assumptions. Actual performance depends on weather, shading, cleaning, grid availability, and tariff changes, and may vary.

Warranty

- **Solar panels:** as per OEM — typically 25 years performance and 10-12 years product warranty.
- **Inverter:** as per OEM — typically 5-10 years standard, with optional extensions.
- **Mounting structure and workmanship:** covered for the period specified on the components page.
- All warranty claims are routed through us to the respective OEMs and are governed by the OEM's own terms.

Net Metering & DISCOM Approvals

Net-metering approval, meter installation, and grid synchronisation are governed by the DISCOM and are outside our direct control. We will file the application on your behalf and follow up, but the approval

timeline depends on DISCOM inspection and processing.

Liability & Force Majeure

We are not liable for delays or losses caused by events beyond reasonable control — including weather, strikes, policy changes, DISCOM delays, or supply-chain disruptions. Our total liability under this proposal is limited to the value of the system.

Cancellation & Refund

Advance payments are refundable if the order is cancelled before procurement begins, net of any design or processing charges incurred. Once components are dispatched, payments become non-refundable.

Jurisdiction

Any disputes arising from this proposal are subject to the jurisdiction of the courts in the city where the installation is being executed.

THANK YOU

Looking forward to work and add value
